

PRODUCT DATASHEET

PRODUCT:

Product Name:	TITANIUM DIOXIDE
Product Code:	R298

R-298

R-298 is a general grade of rutile TiO_2 pigment. It is produced by sulfate process with high-quality ilmenite concentrate from Panzhihua & Xichang area. Advanced inorganic coating by aluminum and zirconium, compound organic treatment has been adopted in production. It has the advantages of excellent dispersibility, strong hiding power, good weatherability, good temperature resistance, and high gloss

Product characteristics of

Organic treatment: Yes

TiO₂ Content % ≥ 94.5

Content Of rutile % ≥ 98.0

Brightness, % ≥ 95.5

Dispersibility (Hegman) ≥ 6.75

Oil absorption, g/100g ≤ 17

Packing

In 25kg, 500kg, 1000kg bags with pallet.
